# Screen cleaner

## Clean without streaks

For a crisp, clear image

Safe for all types of screens

## HG screen cleaner

- guaranteed streak-free
- suitable for and tested on all types of screens

***HG screen cleaner*** **has been developed specially for safe and completely streak-free cleaning of all types of screens, as well as the screens of tablets, laptops, navigation systems and mobile phones. This special cleaner can also be used for cleaning the casing and/or frame of screens.**

**Directions for use:** Use HG screen cleaner only on a cool screen. Depending on the size of the screen, spray once or several times onto a soft, lint-free cloth (e.g. a clean microfibre cloth) and use it to clean the screen. Prevent the liquid from running onto the screen or electronics (e.g. through ventilation gaps). Some stains can be persistent. In such cases, use a little more of the product and apply onto the stain with a circular movement.

**Attention: Transport and store the bottle upright.** Don't use paper tissues or hard cloths, as they can damage screens. Do not put any pressure onto the screens, as this is unnecessary and can cause damage. Never use more product than is necessary. Before using the product, read the cleaning instructions of the device. • Medical personnel can request the data sheet via +31 36 54 94 777 • The consumer's information sheet can be obtained via www.HG.eu

| contains a.o.: |
| --- |
| preservation agents: Benzisothiazolinone, Methylisothiazolinone, 2-bromo-2-nitropropane-1,3-diol |
