HG tile cleaner (product 16)

- sufficient for mopping 40 times

HG tile cleaner is a freshly scented, concentrated mopping cleaner especially developed for regular cleaning of all types of tile floors and floors made of non-calciferous natural stone. This product is also suitable for decorative gravel floors.

1 litre is sufficient for 40 washes.

Directions:

For regular cleaning:

Dissolve 25 ml (a quarter cup) in half a bucket (5L) of lukewarm water. For more intensive soiling, a stronger solution can be made of up to 100 ml (1 cup) of this product to half a bucket of water. Then clean the floor with a wrung-out mop or floor cloth, regularly rinsing it in the cleaning solution. Do not rinse or mop dry, simply leave the floor to dry on its own.

For extreme soiling and overdue maintenance:

See the HG floor tiles treating matrix on the side of this bottle.
