# Hygienic whirlpool bath cleaner

## Powerful against limescale, soap, and oil

Simply clean and fresh

Safe for pipes and parts

## HG hygienic whirlpool bath cleaner

- removes scale, soap, dirt and unpleasant odours
- based on lactic acid and essential TEA TREE oil
- cleans hygienically

**Due to use of your whirlpool, the internal system becomes soiled with limescale, soap residue, grease and skin oils. *HG hygienic whirlpool bath cleaner* has been developed on the basis of ingredients such as lactic acid and essential TEA TREE oil and cleans the whirlpool hygienically without affecting the internal system. Caked-on contamination is removed effectively. Regular use of this product contributes to the lifespan of the whirlpool.**

**Directions for use:**
**For whirlpools with internal semi-automatic cleaning systems:**

1. Fill the internal cleaning system with *HG hygienic whirlpool bath cleaner*.
2. Follow the directions for use of your whirlpool.

**For whirlpools without internal cleaning systems:**

1. Fill the whirlpool with warm water to 5 cm above the highest openings of the water or air jets.
2. Pour 50-75 ml of *HG hygienic whirlpool bath cleaner* directly into the bath.
3. Turn on all the systems for 15 mins.
4. Empty the bath and rinse with clean water. Repeating the treatment with clean water is not necessary. To prevent the build up of dirt it is advisable to clean the whirlpool every 2-3 weeks, depending on usage.

**Coverage:** 50-75 ml per use.
