# HG laminate, vinyl and PVC shine cleaner (product 73)

**• sufficient for mopping 20 times**

***HG laminate, vinyl and PVC shine cleaner*** **is a freshly scented, concentrated mopping cleaner, for regular and effective, safe and quick, streak-free cleaning of all types of laminate floors. 1 litre is sufficient for mopping 20 times.**

**Directions for use:**
**For regular cleaning:** Dissolve 50 ml (half a cup) in half a bucket (5 l) of lukewarm water. For more stubborn dirt, a stronger solution can be made of 100 ml (1 cup) of this product to half a bucket of water. Then clean the floor with a well wrung-out mop or floor cloth, regularly rinsing it in the cleaning solution. Do not rinse or mop dry, simply leave the floor to dry on its own.

**For very stubborn dirt:** See the HG treatment matrix on the side of this bottle.

**Caution:** Never use too much water when cleaning the floor, as the seams may swell when wet.
