HG parquet cleaner shine restorer (product 53)

• sufficient for mopping 20 times

***HG parquet cleaner shine restorer* is a freshly scented, concentrated mopping cleaner with shine restorer developed specially for regular cleaning of both varnished parquet floors and parquet floors treated with *HG parquet protector (product 51)*.**
1 litre is sufficient for 20 washes.

Directions:

For regular cleaning:
Dissolve 50 ml (half a cup) in half a bucket (5L) of lukewarm water. Then clean the floor with a wrung-out mop or floor cloth, regularly rinsing it in the cleaning solution. Do not rinse or mop dry, simply leave the floor to dry on its own.

For intensive soiling or to remove the gloss coating of this product:
See the HG parquet floor treating matrix on the side of this bottle.

Attention:
Never use too much water when cleaning the floor, as the seams may swell when wet.
